PROJECTS

Chronicles of MERNia

GitHub: <https://github.com/kpetrosky/Chronicles-of-Mernia>

Co-Creator

Application: <https://mighty-depths-85532-6b358948c948.herokuapp.com/>

- Developed back-end infrastructure using React, GraphQL, MongoDB, and Mongoose.
- Designed intricate turn-based RPG combat to deliver a satisfying user experience and enough variance between playthroughs to ensure long-term user retention.
- Assisted the front-end team with implementing dynamic images and real-time stat changes using React state variables. Handled complex data transformation to create expansive data objects by extrapolating from limited user input.

tech-blog

GitHub: <https://github.com/zacharydserafin/tech-blog>

Creator

Application: <https://sheltered-coast-95360.herokuapp.com/>

- Created a fully-functional blog-style web application, thematically centered around web development concepts.
- Developed front-end with HTML, CSS, Bulma, Handlebars, and JavaScript.
- Utilized a Mobile-First approach with CSS breakpoints that allowed the user to view content in a visually appealing and organized manner, regardless of viewport width.
- Utilized a Mobile-First approach with CSS breakpoints that allowed the user to view content in a visually appealing and organized manner, regardless of viewport width.

WORK EXPERIENCE

Food and Beverage Expert

Target Stevens Point, WI July 2021 - current

- Worked on a team to collaborate and coordinate tasks so as to complete daily objectives.
- Formulated new and efficient ways to organize product storage and increase productivity.
- Provided exceptional customer service and built relationships with peers and upper management.
- Delegated tasks to optimize workload efficiency and hit daily production goals.
- Worked extensively on creating and maintaining a clean, organized, and professional layout of merchandise and product fixtures.
- Maintained workload flexibility, often shifting between roles and tasks as needed in order to surmount the obstacles other teams faced.
- Monitored and calculated daily metrics to ensure productivity surpassed the minimum acceptable percentage completed by the end of the workday.
